No. 424

AN ORDINANCE—Supplementing Ordinance No. 335, entitled, "An Ordinance

regulating the use and operation of vehicles on the streets of the City of Pittsburgh and providing penalties for the violation thereof," approved October 3, 1922, as amended and supplemented, by prescribing regulations relative to the parking of vehicles upon such public streets and highways; providing for the installation, operation, maintenance, supervision, regulation and control of the use of parking meters; defining and providing for the establishment of parking meter zones upon the public streets and highways; providing for the enforcement thereof, and providing penalties for the violations thereof.

Section 1. *Be it ordained and enacted by the City of Pittsburgh, in Council assembled, and it is hereby ordained and enacted by the authority of the same,* That Ordinance No. 335, entitled, "An Ordinance regulating the use and operation of vehicles on the streets of the City of Pittsburgh and providing penalties for the violation thereof," approved October 3, 1922, as amended and supplemented, is hereby further supplemented as hereinafter set forth.

Section 2. That for the purpose of this Ordinance:

(a) The word "vehicle" shall mean any device in, upon or by which any person or property is or may be transported upon a highway, except a device which is operated upon rails or tracks;

(b) The word "street" shall mean any public street, avenue, road, boulevard, highway or other public place located in the City of Pittsburgh and established for the use of vehicles;

(c) The word "operator" shall mean and include every individual who shall operate a vehicle as the owner thereof or as the agent, employee or permittee of the owner.

Section 3. The Mayor and the Director of the Department of Public Safety are hereby authorized and directed to establish immediately and from time to time hereafter, where in their opinion traffic conditions warrant the same, zones to be known as parking meter zones, upon such streets of the City of Pittsburgh as are selected by them for the location of such zones,

and therein they shall cause parking meters to be installed, and shall cause parking meter spaces to be designated as hereinafter provided. Parking meter zones may only be established at locations where parking regulations now or hereafter in force limit parking to two hours or a lesser period in accordance with Ordinance No. 335, approved October 3, 1922, and its supplements and amendments thereto; and said parking meters may only be used to aid the enforcement of the applicable regulations as established under said Ordinance No. 335, approved October 3, 1922, as amended and supplemented.

Section 4. Parking meters installed in the parking meter zones established as provided in Section 3 hereof shall be placed upon the curb immediately adjacent to the individual parking places hereinafter described. Each parking meter shall be placed or set in such manner as to show or display by a signal that the parking space adjacent to such meter is or is not legally in use. Each parking meter shall be installed and set to display upon the deposit of a five-cent coin, or its equivalent in United States currency, therein, a signal indicating legal parking for that period of time conforming to the limit of parking time which has been or may be established for that area or zone of the street upon which said parking meter is installed, and shall continue to operate from the time of the deposit of such coins therein until the expiration of the time fixed as the parking limit for the part of the street upon which said meter is placed. Each meter shall also be arranged that upon the expiration of said legal parking time it will indicate by a mechanical operation and the displaying of proper signal that the lawful parking period has expired. The Mayor and the Director of the Department of Public Safety are hereby authorized, if they deem necessary in order to further aid in the enforcement of the applicable regulations of aforesaid Ordinance No. 335, to provide and cause any and all parking meters installed to operate in a manner similar to that previously described, so that upon the deposit of a five-cent coin of United States currency, a duration of time as regulated by aforesaid Ordinance No. 335 will be pro-

vided for legal parking or, in lieu thereof, upon the deposit of one-cent coins of United States currency, proportionate parts of time, each equal to one-fifth of the limit of time regulated in aforesaid Ordinance No. 335 will be provided for legal parking for each one cent deposited. However, the deposit of more than five (5) one-cent coins for the purpose of extending the parking time of any vehicle beyond the legal parking time which has been established for the parking space, will be unlawful and a violation of this Ordinance.

Section 5. The Mayor and the Director of the Department of Public Safety are hereby instructed to have lines or marking painted or placed upon the curb and/or upon the street adjacent to each parking meter, for the purpose of designating the parking space for which said meter is to be used, and each vehicle parked alongside of or next to any parking meter shall park within the lines or markings so established. It shall be unlawful and a violation of this Ordinance to park any vehicle across any such line or marking, or to park said vehicle in such position that the same shall not be entirely within the area so designated by such lines or markings.

Section 6. When a parking space in any parking meter zone is parallel with the adjacent curb or sidewalk, any vehicle parking in such parking space shall be parked so that the foremost part of such vehicle shall be alongside of and nearest to the parking meter; when a parking space in any parking meter zone is diagonal to the curb or sidewalk, any vehicle parked in such parking space shall be parked with the foremost part of such vehicle directed at and nearest to such meter.

Section 7. When any vehicle shall be parked in any space alongside of or next to which a parking meter is located, in accordance with the provisions of this Ordinance, the operator of said vehicle shall, upon entering the said parking space, immediately deposit or cause to be deposited coins of United States currency as provided in Section 4 hereof, in such parking meter, and place in operation said meter, and the said parking space may then be law-

fully occupied by such vehicle during the period of parking time which has been prescribed for the part of the street on which said parking space is located. If said vehicle shall remain parked in any such parking space beyond the parking time limit fixed for such parking space, the parking meter shall display a sign or signal showing illegal parking, and in that event such vehicle shall be considered as parked overtime and beyond the period of legal parking time, and the parking of a vehicle where any such meter is located shall be a violation of this Ordinance and punished as hereinafter set forth.

Section 8. It shall be unlawful for any person to cause, allow, permit or suffer any vehicle to be parked overtime beyond the period of legal parking time established for any parking meter zone as herein described.

Section 9. It shall be unlawful and a violation of the provisions of this Ordinance for any person to deposit or cause to be deposited in a parking meter additional coins of United States currency for the purpose of increasing or extending the parking time of any vehicle beyond the legal parking time which has been established for the parking space adjacent to which said parking meter is placed.

Section 10. It shall be unlawful to deposit or cause to be deposited in any parking meter any slug, devices or metallic substitutes for any coin of the United States.

Section 11. It shall be unlawful for any person to deface, injure, tamper with, open or wilfully break, destroy or impair the usefulness of any parking meter installed under the provisions of this Ordinance.

Section 12. Violations of Sections 7, 8 and 9 of this Ordinance shall be considered as violations of properly established parking regulations of the City of Pittsburgh. Notice of violations of Sections 7, 8 and 9 of this Ordinance may be given by police officers of the City of Pittsburgh in the form and follow the procedure as provided in Sections 801 and 803 of Ordinance No. 106, approved April 8, 1932, as amended and supplemented, and/or in the form and

following the procedure as provided in Sections 4, 5 and 6 of Ordinance No. 335, approved October 3, 1922, as amended and supplemented.

Section 13. The coins of United States currency required to be deposited in parking meters as provided herein in Section 4, are hereby levied and assessed as fees to provide for the proper regulations and control of traffic upon the public streets, and to cover the cost of purchase, supervision, inspection, installation, operation, maintenance, control and use of parking spaces, and regulating the parking of vehicles in the parking meter zones created hereby. During the trial period and/or until the entire purchase price of each parking meter has been paid, the coins deposited in such meters shall be collected by the duly authorized agents of the Department of Public Safety, or jointly by such agents and the representatives of the company installing such meters. From the fund so created the Director of the Department of Public Safety shall remit to the meter company such proportion as the contract of purchase may provide, shall retain from the remainder such proportion as in his judgment may be necessary for maintenance, parts, inspection and operation of such meters, and shall deliver the amount remaining to the City Treasurer for disbursement according to law. At the expiration of the trial period and/or until the entire proportion of each parking meter has been paid, all unencumbered funds in the possession of the Director shall be delivered to the City Treasurer.

Section 14. Every person who violates or fails to comply with any of the provisions of Sections 4, 7, 8 and 9 of this Ordinance shall be considered as violating the parking regulations of the City of Pittsburgh and shall upon conviction before a Magistrate of Traffic Court pay a fine of Two Dollars (\$2.00) and in default of such payment shall undergo imprisonment in the County Jail for a period of not more than ten (10) days. Any person so violating the traffic regulations may, at his or her option, waive the hearing before the Magistrate and pay a fine of Two Dollars (\$2.00) for each separate offense.

Section 15. Every person who violates

or fails to comply with the other provisions of this Ordinance shall be punished by a fine of not exceeding Fifty Dollars (\$50.00), or by imprisonment not exceeding thirty (30) days, or by both such fine and imprisonment in the discretion of the Traffic Court Magistrate.

Section 16. If any Section, part of Section, sentence, clause or phrase of this Ordinance shall be held to be unconstitutional or invalid, the remaining provisions hereof shall nevertheless remain in full force and effect.

Section 17. After the date the provisions of this Ordinance shall become effective by the installation of parking meters, the same shall govern traffic in the zones as provided above, for a period of six (6) months thereafter, within which time there shall be introduced into Council an Ordinance or Ordinances embodying such locations, or such of them as it may be desired to have continued in force and effect, and such locations as are embodied in such Ordinance or Ordinances shall continue in full force and effect during such time as such Ordinance or Ordinances shall be pending; and provided further, that if no Ordinance embodying such locations, or any of them, shall have been introduced in Council within the said period of six (6) months, or if any such Ordinance or Ordinances shall fail of final enactment, then such rules and regulations affecting such locations shall terminate and be no longer in full force and effect.

Section 18. That any Ordinance or part of Ordinance, conflicting with the provisions of this Ordinance, be and the same is hereby repealed so far as the same affects this Ordinance, with special reference to Ordinance No. 216, approved May 12, 1938.

Whereas, The Colonial Trust Company foreclosed on a certain mortgage which it held on the aforesaid real estate and at Sheriff's sale on May 3, 1937 was the successful bidder receiving a Sheriff's deed therefor, dated June 26, 1937 and recorded July 19, 1937, and at such sale paying all of the City, School and Water taxes and liens from 1932 to 1936 which were filed as liens at such sale; and

Whereas, The Bureau of City Property collected a total of \$1100.00 in rents from the aforesaid property and continued to collect such rents after title was in the Colonial Trust Company regardless of notice from the aforesaid company that it had acquired title; and

Whereas, the Law Department of the City took the position that even though the City had received all liens and taxes from 1932 to 1936 at the Sheriff's sale on the mortgage, the City was entitled to the amount of City and School taxes and water rents which would have been

levied on the property for 1937 had the title not been in the name of the City at the time taxes were assessed and which would amount to approximately \$691.83 plus a reasonable sum as compensation for collecting such rents; and

Whereas, The Colonial Trust Company has accepted the offer of the Law Department that the City retain \$800.00 to compensate it for the loss of 1937 City, School and Water tax, leaving a balance of \$300.00 due the said Colonial Trust Company; Now, therefore, be it

Whereas, The said agreement provided that all taxes chargeable against the premises from and after the date of possession by the City of Pittsburgh shall be assumed and paid by the City of Pittsburgh; and

Whereas, The Carnegie-Illinois Steel Company, in order to obtain the discount on County taxes for the year 1937 on all the real estate owned by it in the Sixth ward was compelled to pay the County taxes on that portion which by agreement was in the possession of the City of Pittsburgh due to the County taxing authorities refusal to make a separation; and

Whereas, The American Reduction Company of Pittsburgh have offered to turn over to the City of Pittsburgh, for the sum of \$350,000.00, their entire physical assets, with the exception of office furniture and records at 1942 Forbes street and two official automobiles, and

Whereas, A preliminary appraisal, conducted by the Director of the Department of Public Works, indicates that said assets have a value considerably in excess of the price offered; and further, a superficial analysis, of all factors involved, indicates that the acceptance of such offer would enable the City of Pittsburgh to collect and dispose of all garbage and rubbish at a considerable saving in annual cost thereof, and

Whereas, Such appraisal and analysis indicates that the proposition is sufficiently attractive to justify the procurement of the services of concerns qualified to make an expert appraisal and analysis, now, therefore, be it

Whereas, The welfare of the people of Pittsburgh and the prosperity of their activities and industries are dependent, in large part, upon an adequate properly coordinated transportation system in order that their products may be properly and economically distributed throughout the world, and that their interests, both public and private, may be most efficiently served; and

Whereas, Because of its geographical location it enjoys certain advantages due to existing railway lines, highways, airways and a 5,000 mile waterway leading to the South and Southwest, which gives access to South American ports and Central American ports, and the West Coast Port of the United States through the Panama Canal; and

Whereas, The exploitation of this advantage is dependent upon the type and degree of service which may be provided and its cost, and upon the methods and facilities of these transportation agencies; and

Whereas, The assembling, editing and proper dissemination of complete information regarding the adequacy and cost of the transportation service by means of the various agencies, including rail, water, highways, and air, is the first step in providing proper information to existing shippers and customers as well as to industrialists and others seeking proper locations for industries, and, further, such research material provides the means for correcting those factors and conditions which militate against the natural and free flow of commerce which the natural advantages of Pittsburgh should provide; Now, therefore, be it

Resolved, That the Mayor be and he is hereby authorized and directed to appoint a Transportation Research Committee, to serve without pay, (the results of the findings of which might properly culminate in the appointment of a permanent Transportation Authority or Port Commission, or some properly designated group) for the purpose of studying and making proper research to show the nature and volume of transportation agencies for rail, water, highways and air, so as to show the adequacy of their services as to the methods of receiving and transporting passengers and goods, the location of their terminals, the coordination of their facilities as between rail, water, highways and air, and to determine the facilities at the origin of such shipments as to cars, barges, trucks, loading docks and wharves, and the available equipment to meet the requirements of the shipping and traveling public; also to determine the time in transit of goods to meet the requirements of our world-wide customers and the demands of our customers in relation to our competitors in other cities; the unit and combination cost of the various forms of transportation toward goods so as to develop the relationship of transportation costs to marketing should likewise be recorded as well as the distance to which our products may go; such a study should also include the general classification of goods so as to procure the lowest reasonable transportation costs, and the routes, rail, water, highway and air, by which goods can be shipped in order to procure the best service at the lowest reasonable cost; such data when obtained to be made available inter alia for the following purposes:

1. Comparison with similar data from competing cities or territories;
2. Determination of the existing and the required cooperation between various transportation agencies in order to make our transportation system adequate;
3. A permanent record available for all interested agencies;
4. Pertinent data to be given to industries considering the Pittsburgh area as a location;
5. General publicity purposes in or-

Whereas, The Secretary of Banking of the Commonwealth of Pennsylvania on November 29, 1933, took possession of the assets of The Pennsylvania Trust Co., in which institution the City of Pittsburgh had on deposit in both active and inactive accounts the sum of \$1,047,866.03; and

Whereas, By Agreements between The Pennsylvania Trust Co., The Colonial Trust Co. and the City of Pittsburgh, dated October 27, 1931, and supplemented November 6, 1931, and December 22, 1931, there was deposited by The Pennsylvania Trust Co. with The Colonial Trust Co. as Custodian certain notes, promissory, judgment and collateral, bonds, stocks and other collateral, as security for the deposit account of the City of Pittsburgh in The Pennsylvania Trust Co., the book value of which, at the times above set forth, was in excess of the amount of said deposit; and

Whereas, At the time of the closing of said The Pennsylvania Trust Co. the total book value of said pledged securities amounted to \$1,073,784.67; and

Whereas, From October 27, 1931, until this time the said pledged assets have been liquidated by payments and settlements so as to reduce the book value thereof to the sum of \$822,638.26, and at the same time reducing said deposit account to the sum of \$837,495.53, including credit for payments collected and due from the Receiver in the sum of \$634.23; and

Whereas, The Controller of the City of Pittsburgh desires to obtain absolute possession and control of the said pledged securities and of cancelling the Trusteeship in which The Colonial Trust Co., The Pennsylvania Trust Co. and the City of Pittsburgh are involved, and is prepared to file a claim for the unsecured balance of said deposit account; and

Whereas, The estimated recovery value of the unconverted pledged collateral amounts to the sum of \$125,-952.30, leaving the sum of \$711,543.23 as the unsecured balance of said deposit; said amount constituting the present claim of the City of Pittsburgh against the Receiver of The Pennsylvania Trust Co.; Now, therefore, be it

Resolved, That James P. Kerr, Controller of the City of Pittsburgh be and he is hereby authorized and directed to procure for the City of Pittsburgh absolute and unqualified possession of the unconverted pledged collateral now in the custody of The Colonial Trust Co. and having a total book value of \$822,-638.26, consisting of notes, promissory and judgment; notes secured by stocks bonds and other collateral; bonds, stocks, judgments of record and all other assets or property in the custody of said The Colonial Trust Co. under the Agreements above set forth; and

Be it further resolved, That said Controller be and he is hereby authorized and directed to file, in behalf of the City of Pittsburgh, a claim against the Receiver of The Pennsylvania Trust Co. for the sum of \$837,495.53, being the balance of the deposit account due the City of Pittsburgh, less credit of \$125,-952.30, the estimated recovery value of the unconverted pledged collateral, leaving a net unsecured claim of \$711,543.23; and

Be it further resolved, That upon receipt of an assignment of each and every note, judgment of record, claim, suit, bond, mortgage, stock and any and all other claim or claims, or evidence of indebtedness, together with all monies secured thereby, including interest and costs, or other assets which may have been obtained by said Receiver in connection with the liquidation of the said pledged collateral, including the payment of \$634.23, as above set forth,

and all other payments which may have been collected by said Receiver to the date of the cancellation of said Trust Agreement and surrender of the securities held thereunder, said Controller be and he is hereby authorized and directed to execute and deliver a complete release and satisfaction of all claims of the City of Pittsburgh against The Pennsylvania Trust Co., arising under and by virtue of said Agreements between the City of Pittsburgh, The Pennsylvania Trust Co. and The Colonial Trust Co., except the unsecured deposit account of \$711,543.23 of the City of Pittsburgh in The Pennsylvania Trust Co.; and

Be it further resolved, That upon delivery of the collateral securities pledged with The Colonial Trust Co. as Trustee, as above set forth, and the transmittal to the City Controller of all monies in the possession of The Colonial Trust Co. by virtue of said Agreements, said Controller be and he is hereby authorized and directed to execute and deliver a Release of all claims of the City of Pittsburgh against The Colonial Trust Co. under the Agreements above set forth, and to cancel the same.

No. 107

Whereas, George A. Kelley, while employed as a patrolman in the Bureau of Police, Department of Public Safety of the City of Pittsburgh, was instantly killed on February 12, 1937, in the course of his employment, while directing traffic at the corner of Fortieth and Butler streets, by a truck owned by the West Penn Reduction Company; and

Whereas, He left to survive him his widow, Harriet R. Kelley, and four children, George R. Kelley, John L. Kelley, Kenneth K. Kelley and Harriet F. Kelley, sixteen, fifteen, thirteen and nine years old, respectively, at the time of the accident; and

Whereas, The City of Pittsburgh, on March 1, 1937, entered into an agreement to pay to Harriet R. Kelley, for herself

and the three younger children, total compensation, including funeral expenses of One Hundred Fifty Dollars (\$150.00), in the amount of Forty-two Hundred Thirty-four and 89/100 Dollars (\$4234.89), payable at Fifteen Dollars (\$15.00) per week from February 19, 1937, to December 30, 1939; at Fourteen Dollars (\$14.00) per week from December 30, 1937, to December 17, 1939; at Twelve and 50/100 Dollars (\$12.50) per week from December 17, 1939, to November 20, 1942; and at Three and 75/100 Dollars (\$3.75) per week from November 20, 1942, to March 29, 1943; under which agreement the sum of Eleven Hundred Sixteen and 86/100 Dollars (\$1116.86) has been paid to her up to and including May 25, 1938, leaving the further sum of Thirty-one Hundred Eighteen and 3/100 Dollars (\$3118.03) payable to her up to and including March 29, 1943; and

Whereas, Suit was brought by Harriet R. Kelley against the West Penn Reduction Company at No. 3139 April Term, 1937, Court of Common Pleas of Allegheny County, Pa., in connection with the above accident and the City of Pittsburgh filed a Petition for Subrogation, and a settlement has since been agreed upon whereby the defendant will pay the total sum of Seven Thousand Dollars (\$7000.00), through the United States Fidelity and Guaranty Company, to Harriet R. Kelley in full settlement of this claim; provided, however, that the City of Pittsburgh will accept Six Hundred Dollars (\$600.00) from the said Company in satisfaction of its right to subrogation for the amount of compensation already paid to Harriet R. Kelley to May 25, 1938, inclusive; and

Whereas, The facts in the case of Harriet R. Kelley against the West Penn Reduction Company are such that it is doubtful that a verdict in her favor could be had upon trial of the case because of the contributory negligence of the deceased George A. Kelley; and

Whereas, Under the Workmen's Compensation Act of 1915 and its several amendments the amount of the settlement received by Harriet R. Kelley in excess of the amount paid to the City of Pittsburgh as hereinabove proposed will be credited as an advance payment by the City of Pittsburgh, and as a result thereof the liability of the City of

Pittsburgh to Harriet R. Kelley and the other dependents of George A. Kelley, deceased, for compensation arising out of this accident will be extinguished;

Now, therefore, be it resolved, That the City Solicitor shall be and he is hereby authorized and directed to accept the sum of Six Hundred Dollars (\$600.00) in full settlement of the City's right by subrogation to receive the sums paid to Harriet R. Kelley as compensation for the death of her husband, George R. Kelley, deceased; and, be it further

Resolved, That the Mayor and the Director of the Department of Public Safety shall be and they are hereby authorized and directed to make, execute and deliver to, and accept from, Harriet R. Kelley, the West Penn Reduction Company and the United States Fidelity and Guaranty Company, such releases and other documents necessary to settle the claim of the City of Pittsburgh for subrogation in the case of Harriet R. Kelley against the West Penn Reduction Company at No. 3139 April Term, 1937, in accordance with the terms of this Resolution, and extinguish the liability of the City of Pittsburgh to Harriet R. Kelley and the minor dependents of George A. Kelley, deceased.

Whereas, The City of Pittsburgh has heretofore authorized the Treasurer to set up special construction accounts in which grants received from the United States Government in aid of projects authorized by the People's Bond Issue of August 2, 1938, and all moneys appropriated by the City to meet the cost of the projects, are deposited for the purpose of defraying the cost of such projects; and,

Whereas, Under the rules and regulations of the Federal Emergency Administration of Public Works it is required that the City have on deposit

in such construction accounts its full share of the cost of the projects before requisition for any intermediate grants from the Federal Emergency Administration of Public Works will be honored; and

Whereas, The City proposes to submit requisitions for ten per cent. intermediate grants predicated upon necessary engineering and other expenses and upon contract obligations to be assumed by the City as they arise; and,

Whereas, In order to decrease interest charges to the City, notes are being sold as required, and the City does not have on deposit all money required to cover its share of the total cost of the projects; and,

Whereas, It is desired to request the Federal Emergency Administration of Public Works to waive this requirement upon assurance by the City that additional funds required for construction, engineering and all other costs will be appropriated and deposited in amounts sufficient to cover the contractual obligations assumed by the City from time to time; Now, therefore,

Be it resolved, That the City of Pittsburgh request the Federal Emergency Administration of Public Works to waive its requirement that the City have on deposit its full share of the cost of the projects for which grants have been approved, the City of Pittsburgh hereby agreeing that, if the Federal Emergency Administration of Public Works honors its requisitions for ten per cent. intermediate grants, it will from time to time as required appropriate sufficient funds to cover the City's share of the cost of engineering, construction and other necessary expenses.

Whereas, An application was submitted January 22, 1937 for grant of Federal aid in carrying out wall and concrete step improvements throughout the City at a total cost of \$253,720.00; and,

Whereas, On April 28, 1938, upon request of the Associate Regional Director of the Public Works Administration, the Director of the Department of Public Works advised the status of the application was affected by the completion, in the interim, by direct City contracts of certain improvements included therein; and,

Whereas, Pursuant to Ordinance No. 378, approved August 18, 1938, the City accepted an offer of grant of Federal funds in amount of \$108,955.00 on Project No. Pa. 1599-F; and,

Whereas, On October 13, 1938, the City was notified that the project was amended by reducing the offer of Federal funds from \$108,955.00 to \$97,074.00, same being predicated on aforesaid letter from the Director, under date of April 28, 1938; and,

Whereas, For the reason that the Department of Public Works expected that the schedule of improvements incorporated in the application could be revised by substituting other improvements for those to be eliminated, it was not deemed necessary to file a new application for

a separate offer of grant for aid to carry out the improvements to be substituted; and,

Whereas, The amended offer of grant stipulates that the City shall, within seven days thereof, indicate the acceptance of the terms and conditions thereof; and,

Whereas, The City does not desire to take any action to be construed as indicating its willingness to agree to a reduction of the original offer of grant for the reason that it has other very necessary and important improvements for which it desires grants of Federal aid in the amount of funds contemplated to be cancelled by the amended offer, funds for the City's share of the cost for which are provided for; Now, therefore, be it

Resolved, That the Administrator of the Federal Emergency Administration of Public Works is hereby requested to reconsider the amended offer of out-right grant of allotment in the total amount of \$97,074.00 and to re-establish the project with total grant allotment of \$108,955.00; and, Further, be it

Resolved, That the Director of the Department of Public Works submit to the proper officials of the Federal Emergency Administration of Public Works all data required for reconsideration thereof, including the cost estimates, plans and necessary breakdowns for the projects as requested to be re-established.
